About Benefit Commerce Group

Benefit Commerce Group is a progressive and results-driven employee benefits consulting firm. Benefit Commerce is making life easier and better for HR teams and helps companies striving to control one of their highest expense items: employee benefits costs. We provide employers with sustainable strategies to lower health plan costs first-year and long-term. We are not the

typical benefits firm, and we are not offering typical cost-shifting techniques. Our strategies yield real savings for both employer and employee and also integrate meaningful consumer-focused employee health and wellness programs. Our technology enhancements also set us apart, as we offer methods to streamline HR functions from enrollment through ongoing employee communication and administration. Through our proven programs, Benefit Commerce Group has helped our clients receive recognition from the Phoenix Business Journal's "Healthiest Employers" program, the Wellness Council of Arizona and other programs. Clients have received over 160 awards in the past five years. The company conducts the annual Arizona Employee Benefits Benchmarking survey for mid-size employers across the state. The success of our strategies is illustrated by our Inc. 5000 listing each year since 2015, a four-time honoree among the fastest-growing private companies in America.
